

Growth of \$1,000,000 from January 1, 2010 to September 30, 2018

Performance returns are as of September 30, 2018 and are based on composites of actual accounts. The indicated rates of return are **net of fees**. Please note that past performance is not necessarily an indicator of future performance. Individual results of clients' portfolios may differ from that of the composite portfolio returns as fees may differ, and performance of specific accounts is based on specific account investiture. The noted model portfolios may not be appropriate for all investors. Inception to August 31, 2018 are representative net, model account returns in C\$ provided by the portfolio manager.
